PROFESSIONAL SUMMARY

Determined Computer Science (AI & ML) student with strong foundations in **Machine Learning, Python, SQL and Computer Networks**. Experienced in building scalable applications and ML-based analytical systems. Adept at problem-solving, teamwork, and applying data-driven insights to real-world challenges.

EDUCATION

B.E. – Computer Science Engineering (AI & ML)
The National Institute of Engineering, Mysore
CGPA: 9.53 (Current) | 2023 – Present

Pre-University (PCMS) – The Learning Centre P.U. College, Mangalore | **93%**
CBSE – Class X – Vidyadayinee English Medium School | **96%**

TECHNICAL SKILLS

Programming: Python, Java, C
ML & AI: Scikit-learn, Pandas, NumPy, OpenCV,
Web: Flask, Streamlit, HTML5, Jinja2
Databases: MySQL, MongoDB, JSON
Visualization: Matplotlib, Seaborn
Tools: Git, GitHub, VS Code, Jupyter Notebook

COURSEWORK

Data Structures & Applications | Algorithms | OOP in Java | SQL & RDBMS | Digital Design & Computer Organization | Computer Networks | Machine Learning

---

PROJECTS

Online Car Rental System | Flask, MySQL

- Developed a full-stack system for vehicle booking, owner approvals, and payment management
- Implemented MVC architecture, REST APIs, and real-time availability handling

Epileptic Seizure Prediction with Explainable AI

- Developed a dashboard which predicts epilepsy in a person using EEG snapshot images.
- Implemented CNN algorithm, OpenCV library, Basic Tensorflow and SHAP algorithm (Explainable AI)

BMI & Diabetes Predictor | ML, Streamlit

- Implemented Linear Regression, Logistic Regression, KNN, and Naive Bayes models
- Created interactive dashboards with Streamlit and visualized results using Matplotlib

---

CERTIFICATIONS

Python Data Structures – University of Michigan (Coursera)
Introduction to Software Engineering – IBM (Coursera)

LEADERSHIP & ACHIEVEMENTS

- **TL Manager**, ALPHA Innovation & Tinkerers' Lab
- **Student Member**, TIE Mysore
- Entelika AI Hackathon
- Shortlisted – SIH Internal Hackathon
